

# Scientific Software Security Innovation Institute Workshop

August 6, 2010

NCSA ACCESS Center, 901 N. Stuart St. #800  
Arlington Va, 22203 (703) 248-0072

## Workshop Objectives

1. To document security software efforts in place in order to develop a competitive landscape of options.
2. To document security needs from the perspective of a wide variety of domain scientists, representing virtual organizations, national observatories, and small research projects.
3. To recommend whether S3I2 should move forward and, if so, to identify observatory or other project partners, organizational structures, and services that would comprise this institute.
4. To understand the parameters, including but not limited to financial, policy, and human, which influence sustainable security for research cyberinfrastructure.
